PRODUCT DATA SHEET

49-1G MIRACRYL THICKENER - ADDITIVE TO PAINT

PRODUCT DESCRIPTION: This product is designed for thickening water based acrylics and vinyl acrylic paints. It is primarily used to create special textured effects. Add to Vara Bond 85 lines, Miracryl Flat 49 lines, Acry Luster 772 lines, Color Themes Flat 4908 lines, Studio White 5050 lines, or Set White 5006 lines or many other paints for viscosity modification.

APPLICATION: while mixing the paint, this should be added little by little until getting your desired viscosity. Even if addition was stopped, its viscosity will be going up. New product should be tested with small amount before you make whole job. Sometime this additive is too much poured, this causes gritty problem. In order to prevent this gritty problem, pour slowly and mix well fast. The amount to use this product is changed by the binder of paint. It needed to be tested and get how much needed.

TEMPERATURE: Freezing must be protected against and prevented. Do not apply when temperature is below 60°F

VOC: ZERO

CAUTION!

DO NOT TAKE INTERNALLY. KEEP OUT OF REACH OF CHILDREN. KEEP FROM FREEZING
